1. Introduction

You will be introduced to fundamental knowledge and language skills appropriate to your chosen art or design discipline. The module will be delivered through a series of projects addressing the following key themes:

- Specialist - Discipline specific practice and theory
- Consolidation - Reflective Practice, Documentation and Dissemination.

These will be summatively assessed against the module learning outcomes at the end of the Module Projects will be developed and reviewed annually by interdisciplinary teams from across NCAD, under the supervision of the Programme Leaders and Module Co-ordinator.

Aim

1. Introduce you to fundamental disciplinary methods, techniques and approaches.

¹ European Credit Transfer and Accumulation System, where 60 ECTS credits equate to the workload of a full-time academic year

2. What will I learn?

On successful completion of this module students will be able to:

- Demonstrate the ability to critically select studio and research themes and begin to develop a personal direction
- Apply fundamental material and conceptual development through a transparent iterative process
- Produce project solutions through structured and transparent methodologies
- Show an ability to present and discuss creative work with tutors and peers.

This module builds further on elements learned during the Pathway experience introductions to the specialist disciplines in CE1-6. There will be specific discipline projects for each pathway and students will learn in their specialist discipline grouping led by first year and school staff. Each student grouping will learn content specific to their discipline area. This content will be defined in project briefs.

3. How will I learn?

Students will learn through a combination of set activities within the studio, online and self-directed study within and outside the studio.

Learning tool	Hours

Students will receive feedback on their progress in the form of formative assessments and informal feedback as well as feedback on summative assessments.

7. Feedback, results and grading

This module is fully graded using alpha grades rather than percentages and according to the standard NCAD grading criteria system see (document link here) . Your grade achieved in this module will contribute to your overall calculated grade at the end of the academic year. Gaining higher grades will be important for any student who may wish to apply to transfer department for progression to 2nd year.

8. What happens if I fail?

Resit Opportunities

Opportunities will be provided during or at the end of Spring Trimester to students who do not complete all assessments, but students will not be able to progress to the next stage of the programme until they have successfully completed all Year 1 modules, equivalent to 60 credits.

9. When and where is this module offered?

First Year Studios Design for Industry Building and online through remote learning from home

Spring Trimester, March to May

10. How will I have the chance to evaluate the module?

It is important to NCAD that students inform the development of teaching and learning at NCAD. We encourage all students to communicate their observations and their concerns about their study to members of academic staff to inform the evolution of the programme.

About two-thirds of the way through the year, a student forum will be convened to gather students' comments about their study and the delivery of the programme. In addition, at the end of the Spring Trimester, students have the opportunity to complete an online evaluation of their study and

experience at NCAD. These evaluation events are important to current and future students, to ensure we can enhance the delivery of programmes at NCAD.

In addition, you are invited to discuss your experience on the module with your lecturers at any point during the year. You can also relay your comments to the class student representative who will communicate your comments to the staff.
