1. Introduction

This module focuses on the development of skills and knowledge applicable to the formation of a visual art practice.

The aims of this module are to:

- Acquire skills and techniques applicable to jewellery design and object making.
- Explore a range of materials and techniques suitable for contemporary jewellery and object design.
- Raise awareness of contemporary approaches to object making.
- Translate concepts and ideas to a design process.

2. What will I learn?

On successful completion of this module students will be able to:

1. Experiment with a range of materials.
2. Originate and develop ideas through research.
3. Record the research process through notebook and drawings.
4. Select appropriate materials suitable to the design process.
5. Refine a design, from conception through to production.
6. Present final work for display.

Applications must be received prior to the commencement of delivery of the module.
Recommended	None

8. When and where is this module offered?

Appropriate space booked through college bookable room system

9. How will I have the chance to evaluate the module?

It is important to NCAD that students inform the development of teaching and learning at NCAD. We encourage all students to communicate their concerns and their observations about their study to members of staff so that any changes can be made in a timely manner.

A student forum will be convened to gather students' comments about their study and the delivery of the programme. In addition, at the end of Trimester 2, students have the opportunity to complete an online evaluation of their study and experience at NCAD. These evaluation events are important to current and future students, to ensure we can enhance the delivery of programmes at NCAD.

In addition, you are invited to discuss your experience on the module with your lecturers at any point during the year. You can also relay your comments to the class student representative who will communicate your comments to the staff.
