#### 1. Introduction

---

This module seeks to build upon Creative Futures 1 and empower creative practitioners from a range of disciplines, with the sustainable and adaptable skills and attributes that they will require to shape the future of Ireland’s creative sector.

The module encompasses a network of experiential online and hybrid courses that act as platforms for deeper consideration of thematically based and skills-led knowledge, for intensive skilling or for shaping and sharing critical dialogues. Learners engage in a set of learning experiences that build into a body of specific, clear and relevant knowledge which can be transferred directly to their creative and/or professional practice.

The learner has an opportunity to test their direction, thinking, appetite and practice in a supported and connected learning environment that encourages continued, creative exploration.

The module forms part of the Studio+ suite of modules, which seek to give students at NCAD a sense of independence and professionalism as they work collaboratively with each other, and with external organisations.

#### 2. What will I learn?

---

On successful completion of this module, students will be able to:

- **DEVELOP:** develop new learning and skills to support their creative career aspirations.
- **IMMERSE:** Immerse themselves in contemporary critical thinking and doing, and to be part of the vanguard, shaping new creative futures.

---

<sup>1</sup> European Credit Transfer and Accumulation System, where 60 ECTS credits equate to the workload of a full-time academic year

## 8. How will I have the chance to evaluate the module?

---

It is important to NCAD that students inform the development of teaching and learning at NCAD. We encourage all students to communicate their concerns and their observations about their study to members of staff so that any changes can be made in a timely manner.

About two-thirds of the way through the year, a student forum will be convened to gather students' comments about their study and the delivery of the programme. In addition, at the end of Trimester 2, students have the opportunity to complete an online evaluation of their study and experience at NCAD. These evaluation events are important to current and future students, to ensure we can enhance the delivery of programmes at NCAD.

In addition, students are invited to discuss their experience on the module with their lecturers at any point during the year. Students can also relay their comments to the class student representative who will communicate their comments to the staff.
