<b>Responsibility</b>	The NCAD Academic Council and School of Design Board have responsibility for this module.		

#### 1. Introduction

The aim of this module is to build upon the Design Bureau Minor module and provide students with the opportunity to apply the subject-specific design skills, knowledge and understanding, as well as personal transferable skills, acquired in the programme, to address real world projects and undertake research projects within a design bureau for a second trimester.

The module seeks to:

- Enable students to undertake Real World Projects: Live, commercial and cultural projects within departmental and/or disciplinary teams.
- Increase student employability.
- Develop team working skills.
- Provide students with an inter-disciplinary peer network.
- Develop critical thinking ahead of students' final year in college and their early post-college career.

Under the direction of NCAD staff and industry practitioners, students identify opportunities, generate ideas, and make tools for positive industry and sectoral change.

The module forms part of the Studio+ suite of modules, which seek to give Design students at NCAD a sense of independence and professionalism as they work collaboratively with each other, and with external organisations.

The module is underpinned by lectures, seminars and workshops.

## 2. What will I learn?

---

On successful completion of projects within the design bureau, students will be able to:

1. DELIVER: Demonstrate a deep understanding of how to work with clients to research, develop and deliver design for industry and sectoral projects.
2. PLAN: Demonstrate advanced project planning, critical research and organisational skills.
3. COLLABORATE: Demonstrate mature professional, interpersonal and communication skills appropriate to a team based workplace situation.

## 3. How will I learn?

---

Students will learn through a combination of set activities within the studio and self-directed study within and outside the studio.

Learning tool	Hours
Lectures/Tutorials/Workshops/Reviews	30
Studio – Directed Student Learning	70
Self-Directed Learning	100
<b>Total Workload</b>	<b>200</b>

## 4. What learning supports are provided?

---

Reading lists, suggested websites and other learning supports are included in the project briefs.

## 5. How will I be assessed?

---

Assessment tool	% of final grade	Timing
Submission of a written critical evaluation of the live project/s undertaken.	30%	End of trimester
A portfolio of design work which should provide evidence of all research and development work carried out during the project/s.	70%	End of trimester
<b>Total</b>	<b>100%</b>	

Assessment tool	Learning outcomes assessed
Written critical evaluation	All learning outcomes
Portfolio of design work	All learning outcomes

Students will receive feedback on their progress in the form of formative assessments and informal feedback as well as feedback on summative assessments.

## 6. What happens if I fail?

---

### Resit Opportunities

Opportunities will be provided during or at the end of Trimester 2 or 3 to students who do not complete all assessments.

## 7. Am I eligible to take this module?

## 9. How will I have the chance to evaluate the module?

---

It is important to NCAD that students inform the development of teaching and learning at NCAD. We encourage all students to communicate their concerns and their observations about their study to members of staff so that any changes can be made in a timely manner.

About two-thirds of the way through the year, a student forum will be convened to gather students' comments about their study and the delivery of the programme. In addition, at the end of Trimester 2, students have the opportunity to complete an online evaluation of their study and experience at NCAD. These evaluation events are important to current and future students, to ensure we can enhance the delivery of programmes at NCAD.

In addition, students are invited to discuss their experience on the module with their lecturers at any point during the year. Students can also relay their comments to the class student representative who will communicate their comments to the staff.
