1. Introduction

The module offers a blend of school-wide and department-specific skills training to help equip students with the professional, making and digital skills required by industry.

The module forms part of the Studio+ suite of modules, which seek to give Design students at NCAD a sense of independence and professionalism as they work collaboratively with each other, and with external organisations.

The module is intended to support students undertaking the Design Bureau Minor and Major modules, where students address real world projects and undertake research projects.

The module is underpinned by lectures, seminars and workshops.

2. What will I learn?

On successful completion of the module, students will be able to:

1. DEVELOP: demonstrate the ability to develop a range of professional skills required within their design discipline and the wider creative industries.
2. APPLY: demonstrate the ability to apply a range of professional skills to resolve a range of real world design projects.

3. How will I learn?

Students will learn through a combination of set activities within the studio and self-directed study within and outside the studio and workshops.

| Learning tool | Hours |
|--------------------------------------|-------|
| Lectures/Tutorials/Workshops/Reviews | 20 |

¹ European Credit Transfer and Accumulation System, where 60 ECTS credits equate to the workload of a full-time academic year (two trimesters)

9. How will I have the chance to evaluate the module?

It is important to NCAD that students inform the development of teaching and learning at NCAD. We encourage all students to communicate their concerns and their observations about their study to members of staff so that any changes can be made in a timely manner.

About two-thirds of the way through the year, a student forum will be convened to gather students' comments about their study and the delivery of the programme. In addition, at the end of Trimester 2, students have the opportunity to complete an online evaluation of their study and experience at NCAD. These evaluation events are important to current and future students, to ensure we can enhance the delivery of programmes at NCAD.

In addition, students are invited to discuss their experience on the module with their lecturers at any point during the year. Students can also relay their comments to the class student representative who will communicate their comments to the staff.
