

**Hey SUSI,
I'm an undergrad,
am I eligible for a
student grant?**

**If your household
income is below
€100,000, you very
well might be.**

We know college can be expensive. That's why the Government has expanded the student grant scheme, administered by **SUSI**.

By increasing the income thresholds for the student contribution grant, more undergraduate students than ever before may be eligible for financial support.

If your household income is below €100,000, from September you may be eligible for Student Contribution Grant, a maintenance grant, or both.

To see if you're eligible, suss out **susi.ie**.
