PME2-8 Professional Digital Portfolio

Credits	5	Course	PME
Level (NQAI Framework)	9	School	Education
Stage	1	Module Leader	Dr. D. Jordan / T. Murphy
Semester	4	Module Coordinator	Dr. D. Jordan/ T. Murphy
<p>As part of the preparation for a professional career in education and for the continuation of their professional development throughout that career as a lifelong learner, each student is required to commence the compilation of their Professional Portfolio. This will contain a range of material reflecting their personal and professional experience while on the PME programme. The portfolio will be constructed in mixed media – including, for example, visual record of work done by the student-teacher and by his/her pupils, written documentation, and samples of various material and resources encountered.</p> <p>A digital base for the portfolio will normally be expected</p>			

What will I learn?

On successful completion of this module, students will be able to:

- Identify significant items of evidence to support their reflection on a range of different learning experiences
- Utilise digital media for the storing, recording and processing of material for the portfolio
- Demonstrate their professional and learning profile through the evidence of a portfolio that is organic and flexible
- Link their portfolio to other databases, repositories and resource banks.

How will I learn?

Tutorials Seminars	HRS/ Semesters
Contact hours	18
Autonomous Student Learning /self-directed study	82
Total Workload	100

How will I be assessed?

Presentation of Digital Portfolio	% of Final Grade	Timing
	100	End of Semester 4
Total	100
